*E1 means in InDesign 0+905 = 905

*E2 means 6000 + 0 = 6000

*E3 means 2000+905 = 2905

*E4 means 6000+901 = 6901

*E5 means 6000+905 = 6905

All of these five line styles should be exported as *E1 up to *E5.

All others are InDesign only numbers, like 1908 or 5909, and are exported unmapped.
